MANAGEMENT (ISM)
CONCENTRATION

The Master of Science in Management program allows students to concentrate their advanced study in Information Systems Management. Because of the complex nature of the MS Management specializations, they are not normally offered as options in traditional MBA programs. They are designed for individuals who know what they want to do or to help them apply what they already know more effectively. The introductory coursework for this program is termed a foundation core and consists of six credits which may be waived if the student has completed prior study in the area. The remaining 30 credits of coursework consists of 12 credits of specialization coursework and six credits of electives. If all foundation courses are waived, the program is 30 credits in length. Students may waive the GMAT requirement if they have an acceptable GRE score and have two years of documented business experience.
