Foundation Program

"Foundation" is defined as the basis or fundamental principle on which something is founded.

The courses of the Foundation Program at the Myers School of Art are the basis upon which a career as an artist or graphic designer is built. The content covered in this series of classes will serve as a resource for students to draw on as they move into upper-level classes and then into their professional careers. This groundwork is established to enable students and faculty to focus intently on the interaction between media and content as applied to specific upper-level fine and applied arts disciplines.

The many concepts, media, and concerns covered are basic but should never be considered simple. They are in many ways the most complex topics with which art students struggle. The concepts that students investigate in these classes are the language and grammar that are the conventions of visual literacy. As the elements of our common language, these are concepts students must know fluently. As the convention of our discipline, their history must be understood and their application to contemporary art considered.

We recommend that all students pursuing a Bachelor of Fine Arts (BFA) or a Bachelor of Arts (BA) in Art Studio or Art Education take the following 3 studio courses their first semester in the program:

ART 131 Foundation Drawing I
 ART 144 Foundation 2D Design
 ART 145 Foundation 3D Design

All majors (BFA and BA) are required to pass the co-requisites ART 250 Foundation Lecture / ART 252 Foundation Studio which include evaluation and further investigation of the topics covered in the Foundation Curriculum. These two courses should be taken the semester following completion of ART 131, ART 144 and ART 145. Students are given a total of 3 opportunities to successfully pass the Foundation Forum.

Additionally, BFA candidates are required to complete a Junior Review (reviews Sophomore/Junior-level work) and a Senior Exhibition (Senior-level work).
