

# MULTIDISCIPLINARY STUDIES, BAT

## Bachelor of Arts in Multidisciplinary Studies (300105BAT)

The Multidisciplinary Studies program is a self-designed major, allowing the student to examine traditional disciplines from diverse points of view and to plan a program of study targeted to his/her specific needs and interests. This program also serves students who desire to bring closure to their education when they have accumulated hours in varied areas without clear progress to a specific major or those who have divergent interests that cannot be accommodated in a traditional degree program.

The following information has official approval of **The Buchtel College of Arts & Sciences**, but is intended only as a supplemental guide. Official degree requirements are established at the time of transfer and admission to the degree-granting college. Students should refer to the Degree Progress Report (Stellic) which is definitive for graduation requirements. *Completion of this degree within the identified time frame below is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.* The transfer process is completed through an appointment with your academic advisor.

**Three year accelerated option:** for first time students who have earned credits for at least the first year of courses. Credits can be earned through qualifying scores on appropriate Advanced Placement (AP) exams or through [College Credit Plus](#) Program (CCP) courses. Credits for qualifying AP scores or CCP courses are determined by the appropriate academic department. Departments may assign varied course credit, depending on the student's score on an AP exam or [grade in a CCP](#) course. Students may also receive credit by examination or via placement tests, where appropriate.

## Requirements Summary

Code	Title	Hours
	General Education Requirements ( <a href="https://bulletin.uakron.edu/undergraduate/general-education/">https://bulletin.uakron.edu/undergraduate/general-education/</a> )	36
