GENERAL BUSINESS

The general Business Administration majors and minors are designed to enrich a student’s academic and professional experience.

The Business Administration major is intended to offer a comprehensive approach across the 4 primary areas of business including Accounting, Finance, Management and Marketing. Students who intend to pursue careers in small business management, whether by creating or acquiring a business, or perhaps taking over a family business enterprise, may find the flexibility of this degree program best for them. Other students with more full-time professional experience may also prefer the broader course selection available in this degree program.

The Business Administration major requires students to complete the College of Business core curriculum and 27 credit hours from specified courses. Students in this major must also complete an approved College of Business minor.

The General Business Administration minors are designed for students in a major outside of the College of Business to enrich their academic experience and increase their potential career opportunities. Due to prerequisites, students should allow two years to complete a minor in the College of Business. Some courses include 3450:145 Algebra for Calculus as a prerequisite.

The Undecided Business major is designed for students in the College of Business who are uncertain about which major in the College of Business to declare. Ideally, students should select a major by the start of their Sophomore year of college.

To declare a major or minor, please make an appointment with a College of Business Academic Advisor by calling 330.972.7042 or scheduling an appointment online at https://www.uakron.edu/business/advising.
