

CONSTRUCTION MANAGEMENT, CERTIFICATE

Certificate in Construction Management (299104C)

This program is aimed at developing technical knowledge and skills necessary to supervise a construction project. This certificate may be earned independently of earning a degree, but all coursework can be applied to an AAS degree or the BS degree in Construction Engineering.

Prerequisite classes must be completed before taking the courses for this certificate. Consult the program for details.

The following information has official approval of **The Department of Civil Engineering** and **The College of Engineering and Polymer Science**, but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to: class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, prerequisites, among others.

The following courses constitute a "Certificate in Construction Management" and must be completed with a minimum grade point average of 2.0 overall for the certificate to be noted on the student's record.

Summary

Code	Title	Hours
Required Courses		16
Total Hours		16

Required Courses

Code	Title	Hours
COET:352	Field Management & Scheduling	2
COET:358	Advanced Estimating	3
2990:359	Construction Cost Control	3
COET:453	Legal Aspects of Construction	2
COET:468	Construction Management	3
COET:479	CPC Seminar	3
Total Hours		16

Note: Because most of the required courses have prerequisites, student should consult with the program director of the Construction Engineering Technology program for a contract before beginning course work.
