## Certificate in Allied Health Care Administration (275002C)

Allied Health Care Administration managers work closely with clinical and administrative staff as they process, analyze and report information vital to the delivery of health care. Through our certificate program, the student will gain the knowledge of the health care institution that is separate from business. A student with a clinical background will be able to bridge the gap between their health care discipline and healthcare administration.

## Requirements for Admission

Admission to the University of Akron.
